

Guiding Principle 6

We will increase our enrollment through recruitment and retention efforts that can be accommodated by our physical facilities, course offerings, degree programs, and staffing. These efforts will be consistent with our campus values and sustain a vision of increased diversity among the student body including first generation college-students.

Guiding Principle 7

We will create and support a welcoming community that celebrates, appreciates and respects diversity. We will promote diversity both on campus and in the larger community, ensure academic freedom and intellectual pluralism, and embrace OSU's international initiatives.

Guiding Principle 4

We will enrich the life of the larger community through outreach efforts. These efforts will be responsive to the needs of the community, promote the values of higher education and increase its accessibility.
